C Level Rank 9-16      Chris Spring, Tim, Derek, Graham  
D Level Rank 17-U      All remaining bobsleigh athletes

**FIBT Rank**

- Rank is determined by best overall result or World Championships (WCh) result.
- Male pilots take best result of either 2man or 4man
- Male brakemen will use the best result from the team they raced with for the **majority** of the season.
- If a brakeman races for multiple pilots then the pilot they raced with for the **majority** of the season will determine their rank.
- If alternates do not race they are given the same overall rank as the 4man team(s) for men and 2man team(s) for women.

**Injury**

- If injured and unable to compete the rank from the year prior to injury will be used for 1 injured season only. Any longer and the injured athlete will start from Level D.

**Retired/Year Off**

- An athlete starts at Level D if they come back from retirement or a year off.

**Pilots Racing as Brakeman**

- If a pilot slides part of the year as a brakeman the greater of the number of races in each position will be used unless WCh result is best.

**Dispute**

- Any disputes follow the Dispute Policy.
